## Salisbury Glass Centre L I M I T E D

Quality workmanship since 1952

## The shapely alternative to timber

Our Classical suite of windows and doors has been specifically designed with an elegant slim sculptured edge that allows you to benefit from all the advanced benefits of PVC-U whilst maintaining the authentic curved features of timber windows.

All windows come with complimentary ancillaries and high security hardware for that extra peace of mind.

Our windows and doors will look great for years to come with only minimal maintenance. Unlike timber they will never need sanding and painting and won't suffer from rot.

### Frame finishes

White

Rosewood

Antique Oak

Coloured foils

### Glazing options

Georgian Bar

NEW Astragal Bar

Bevelled

Bevelled & lead

Leaded

## Custom made for you

Each product is specifically manufactured to suit your requirements and will perfectly complement your home. Our Classical windows are available in a choice of styles including bays, casements and tilt before turns. Each window and door can also be customised with your choice of finishes and personalised with a range of glazing options.

## Security is paramount

To us your security is a priority. Doors and windows are vital in securing your home from unwanted intruders so we have gone that extra step to ensure our products provide you with maximum security.

We have undergone the rigorous tests required to gain the prestigious Secured by Design accreditation.

The Secured by Design accreditation is endorsed by the police and recognised as meeting 'Police Preferred Specifications'; therefore symbolising maximum security and providing you with that extra reassurance.

All doors are fitted with high security locking mechanisms and hinges providing only the highest standards of safety.

### Secured by Design

Official Police Security Initiative

Adjustable secure and robust two directional hinges.

Safeware 7 Locks incorporating 4 adjustable stainless steel rollers for improved sealing.

Safeware 7 Locks incorporating 3 Die-cast hooks with in-built reverse operation anti-lift, and 25mm throw for added security.

Latchbolt holds back preventing lock-out (Lever-Pad only)

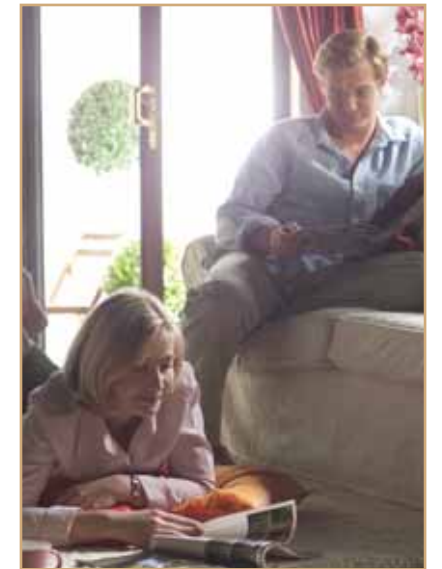

Centre Hook for added security.

High security 6 pin profile cylinder with anti drill and anti pick.

Fully adjustable stainless steel keepsets. Safeware 7 locks incorporating a one piece keepset for added security.

Choice of thresholds with optional low thresholds meeting the requirements of Document 'M'.

Reinforced profiles for stability and security.

## Save money & the environment

The classical suite of 70mm products features a four chamber design offering superb thermal efficiency.

Our standard product easily achieves a 1.8 U-value to comply with the latest building regulations but over and above that we can also offer a range of advanced energy saving products.

### Window Energy Ratings

I'm sure you are familiar with the energy rating symbol that is used to rate the efficiency of your electrical items; well now similar ratings have been introduced for windows.

Introduced by the British Fenestration Rating Council (BFRC), the purpose of Window Energy Ratings (WERs) is to make it clear to you which products will offer you the best levels of energy efficiency.

Energy Window	
	<b>A</b>
Energy index (kWh/m <sup>2</sup> /year)	<b>2</b>
The climate zone is:	<b>UK</b>
Thermal Transmittance (U <sub>g</sub> )	1.4 W/m <sup>2</sup> ·K
Solar Factor (g <sub>g</sub> )	0.45 W/m <sup>2</sup> ·K
Airborne Air Leakage (L <sub>a</sub> )	0.20 W/m <sup>2</sup> ·K
Reg. No.: 707 www.bfrc.org	

At Salisbury Glass we offer both A, B and C rated windows which are considered best practice by the Energy Savings Trust, an independent, non profit making organisation with the aim of cutting CO<sub>2</sub> emissions by promoting the sustainable and efficient use of energy.

By installing energy rated windows you will not only make substantial savings on your heating bills but you will also lower your carbon footprint and do your bit for the environment. Furthermore PVC-U is fully recyclable making it one of the most sustainable materials available.

## More than just a quality product

Established in 1952, Salisbury Glass Centre has continued to expand and develop to become the highly successful and recommended business that it is today.

At Salisbury Glass Centre we pride ourselves on providing a first class installation from start to finish. We will never compromise our high standards which we strive to maintain no matter how large or small the job in hand. Whether a block of flats or a single replacement window we pay the same attention to detail and treat it with the same importance.

We always maintain the utmost respect for other peoples property and ensure every member of the team is courteous, prompt and cleans up after themselves.

You can rely on Salisbury Glass Centre to provide an all round first class service.
